

WALDEN HUMBOLDT VENN

CHECK IN INFORMATION FOR THE TREE CABINS

Check in is from 4pm with check out at 11am, follow the map and directions on your welcome email and be careful not to follow the postcode as this takes you past the farm. You can put Brookhouse Woods, Bromyard into Google maps or follow the link below. Parking is outside your Cabin and the key will be in the back of the door or hanging on the coat rack just next to the door. Please leave unlocked when you leave, with the key in the door.

COVID

To help keep everyone safe during Covid times, please wash your hands when entering the cabin and please leave a window and a door open when departing at 11am on check out. Could you please also do your washing up and leave to air dry and take the top layers only from the sheet, duvet cover and pillow cases and put in the laundry bag provided.

NON SMOKING

All the cabins are non smoking.

LOG BURNER

You have a log burner and instructions are within the cabin on how to use it. If you need any more logs during your stay, you can use the rainbow bag provided to fill up at the log pile which is situated outside Humboldt tree cabin, if you are in Venn, this is just left up the hill and if you are in Walden it is to the right slightly down the hill.

EXTRAS.

Any extras such as food will be in your cabin on arrival and you will be invoiced for them on the day of departure.

Charcoal is available at £4.00 per bag

PIZZA OVEN

If you have ordered pizza dough it will be left out for you to prove during the day, if you are not going to use it on the first night, pop it into the fridge until the day that you are going to use it. The pizza ovens get very hot and cook the pizzas very quickly, so keep an eye on them ;0)

OFF GRID

The cabins are all off grid and rely on solar power, please be mindful and turn off lights when they are not needed and please avoid high wattage appliances such as hair dryers, electric kettles and electric heaters or it may trip the electricity!

Occasionally the water pressure may drop if all the cabins are using a lot of water at the same time, usually this returns on its own though, so just leave it a few minutes and try again.

The hot water can also take a while to come through, so try running the tap for 30 seconds if it feels cold at first.

DOGS.

There are many walks from the cabin for you and our furry friends to explore and there are some maps in the cabin for you. You are free to wander around the farm grounds, but could we please ask that you avoid the hop fields (the fields with the frameworks in them) as hops are very susceptible to infection. We also have animals such as chickens roaming around, so if you could please keep your dogs on a lead when walking around the farm, that would be fantastic. Could you please bag dog poo up and leave outside on the steps when you leave.

Have an absolutely wonderful stay and if you have any problems or questions you can phone or text the number in the text received the day of your arrival.
Thanks, Penny, Will and the Brook House Crew!
